

BOARD OF AIRPORTS COMPANY SOUTH AFRICA ANNOUNCES APPOINTMENT OF NOMPUMELELO MPOFU AS NEW CEO

BEDFORDVIEW, 18 December 2019 – The Board of Directors of Airports Company South Africa is pleased to announce that Cabinet has approved the appointment of Ms Nompumelelo (Mpumi) Mpofo as the new Chief Executive Officer of Airports Company South Africa with effect from 1 February 2020. Ms Mpumi Mpofo joins ACSA as the Company is charting a fresh course for its future.

Mpofo is currently Director-General in the Department of Planning, Monitoring and Evaluation in the Presidency. She has extensive experience spanning over 25 years in the fields of transport, infrastructure development, local government and town, urban and regional planning.

In her career of public service, Mpofo has held the position of Director-General in the departments of Defence, Transport and Housing. She has served on the Boards of the Municipal Demarcation Board, the National Housing Board, the Gauteng Development Tribunal, the National Housing Finance Corporation and the National Home Builders Registration Council.

During her tenure as Director-General in the Department of Transport, Mpofo ensured the development, implementation and monitoring of transport policies and strategies in fields including aviation, rail, maritime, road transport, search and rescue.

She was also the leader of the Government Transport Plan for the FIFA World Cup 2010 and oversaw Airports Company South Africa's airport development and redevelopment programme for 2010.

Mpofo was instrumental in the development and approval by Cabinet of the South African Airlift Strategy which seeks to expand the country's air transport services and to apply a holistic approach to global aviation opportunities to support South Africa's interests.

Ms Mpofo holds an honours degree in urban and regional planning and a graduate degree in town planning from Coventry University in the United Kingdom, as well as a certificate in local government management from Oxford University.

About Airports Company South Africa

Airports Company South Africa is the largest airport operator in Africa. Our mission is to develop and manage world-class airport infrastructure for the benefit of all stakeholders

We manage South Africa's nine principal airports*. In fulfilling this task, Airports Company South Africa facilitates more than 80 percent of South Africa's commercial air travel. Our airports process some 42-million arriving and departing passengers a year.

In the 2018/19 financial year, Airports Company South Africa reported total revenue of R7.1-billion. Currently 55% of Airports Company South Africa revenue is derived from regulated tariffs for aircraft landing and parking fees and a passenger service charge. The remaining 45% is non-aeronautical revenue generated by airport retail, parking, property and other services.

Airports Company South Africa's global footprint extends to technical advisory services and support, airport management, and operating concessions in India, Brazil, Munich, and Ghana.

We also frequently feature among the winners of independently-judged global airport awards. In the 2019 Skytrax World Airport Awards, administered independently by Airports Council International, our airports received the following awards:

- Air travellers voted Cape Town International Airport the Best Airport in Africa. This is the fourth year running that Cape Town International Airport secured this award.
- King Shaka International Airport in Durban won this year's award for Best Regional Airport in Africa and Best Airport Staff in Africa serving 5-10 million passengers. The airport has also been recognised previously in the Skytrax awards.

For more information please visit www.airports.co.za.

*South African airports we operate are: O. R. Tambo International Airport, Cape Town International Airport, King Shaka International Airport, George Airport, Bram Fischer International Airport, Upington Airport, Kimberley Airport, Port Elizabeth Airport and East London Airport.
