## MEDIA RELEASE

### **O. R. TAMBO INTERNATIONAL TO OPEN NEW LONG-TERM PARKING CLOSE TO TERMINALS**

*KEMPTON PARK, 18 January 2018* – O.R. Tambo International Airport will offer travellers greater parking convenience from 1 February 2018 when the current Super South area closes and a new long-term parking area opens in a new parkade just 500m from airport terminals.

The fees for using the new long-term parking facility will remain at current levels provided travellers book online.

Travellers using the existing long-term parking area currently need to wait for a shuttle bus which can result in delays due to high traffic volumes on roads around the airport. The new long-term parking area in the “MSP2” parkade under the City Lodge hotel offers 4 300 parking bays over five levels. This parkade is a five-minute walk from Domestic and International terminals.

Directional signage for the new long-term parking area has been installed on airport access roads.

The long-term parking area is ideal for travellers who will be away for three days or longer. By booking a long-term parking spot via the ‘Book Parking Online’ link at [www.airports.co.za](http://www.airports.co.za).

Travellers can save up to 50% of their total parking fees by booking up to five days in advance through the “Book Parking Online” link at [www.airports.co.za](http://www.airports.co.za). Discounts start at 10% for booking one day in advance, 20% for booking two days in advance up to 50% off for the five-day maximum advance booking period.

Travellers will be able to get a quote for their parking on the website and secure a spot, pending availability, as long as the booking is completed no later than 11pm on the day before entry. Once parking is booked online, travellers simply need to insert the credit card used to make the booking to gain access to the new long-term parking area. On their return, travellers need to insert the same credit card they used to make their booking into the reader at the exit boom to receive the booking discount.

## MEDIA RELEASE

“This long-term parking solution within easy reach of the passenger terminals will save travellers significant time and money,” says Leigh Gunkel-Keuler, spokesperson for O. R. Tambo International Airport. “The booking option guarantees travellers a parking at a discounted rate and significantly reduces the time spent getting to the terminal for their flights.”

Existing users of the Super South parking area will find that they receive at least the same low rates as they are currently paying of R55 a day and R25 per 12-hour period, or part thereof.

Travellers who wish to use the dedicated long-term parking area without advance booking can park on Level -1, but will have to exceed a three-day stay to qualify for long term rates. Once the stay has exceeded three days, the rate will automatically recalculate to long term rates, the same as one would have paid at Super South.

Discounted booked parking is already available in the MSP2 parkade on Level -2, so travellers who book their parking spot online at [www.airports.co.za](http://www.airports.co.za) can start making use of the facility immediately. The Super South long-term parking area will close on 1 February 2018.
