

# **PART C2: PRICING DATA PROVISIONAL BILLS OF QUANTITIES**

Example of the completed schedule shown below:

SECTION A: WASTE COLLECTION & SORTATION						
1 COLLECTION						
Collection of waste from various collection points within the airport precinct per month						
1.1	Collection of between 0-20 tons	ton	1	R	175.00	R 175.00
1.2	Collection of between 20.01 -40 tons	ton	1	R	165.00	R 165.00
1.3	Collection of between 40.01 -60 tons	ton	1	R	150.00	R 150.00
1.4	Collection of between 60.01 - 80 tons	ton	62	R	145.00	R 8 990.00
1.5	Collection of between 80.01 - 100 tons	ton	1	R	140.00	R 140.00
1.6	Collection of more than 100 tons	ton	1	R	140.00	R 140.00
2 SORTATION						
Sortation of all waste streams received from all waste collection points per month						
2.1	Sortation of between 0-20 tons	ton	1	R	175.00	R 175.00
2.2	Sortation of between 20.01 -40 tons	ton	1	R	165.00	R 165.00
2.3	Sortation of between 40.01 -60 tons	ton	1	R	150.00	R 150.00
2.4	Sortation of between 60.01 - 80 tons	ton	62	R	145.00	R 8 990.00
2.5	Sortation of between 80.01 - 100 tons	ton	1	R	140.00	R 140.00
2.6	Sortation of more than 100 tons	ton	1	R	140.00	R 140.00
<b>TOTAL: SECTION A - CARRIED TO SECTION SUMMARY</b>					<b>R</b>	<b>19 520.00</b>

- 19 The example above demonstrates the typical method of completing each section of the price schedule
- 20 Item 1.4 above shows that it is anticipated that 62 tons of waste would be collected on an average month.
- 21 Item 1.1, 1.2, 1.3, 1.5, and 1.6 have a provisional quantity of 1 ton. This is included so that the range of rates can be factored into the bid offer.
- 22 Rates for items 1.1, 1.2, 1.3, 1.5, and 1.6 have a provisional quantity of 1 ton. These rates will be used when waste generated for the month is either below or exceeds the category of 60.01 - 80 tons.
- 23 It is therefore necessary to demonstrate how a typical claim scenario will be assessed and quantities re-measured

**Scenario - Claim in month 01 of contract.**

A total of 35 tons of waste is collected in month 01 of the contract. The claim would be processed as follows:

<b>1</b>	<b>COLLECTION</b>						
	<b>Collection of waste from various collection points within the airport precinct per month</b>						
1.1	Collection of between 0.00-20 tons	ton	0	R	175.00	R	-
1.2	Collection of between 20.01 -40 tons	ton	35	R	165.00	R	5 775.00
1.3	Collection of between 40.01 -60 tons	ton	0	R	150.00	R	-
1.4	Collection of between 60.01 - 80 tons	ton	0	R	145.00	R	-
1.5	Collection of between 80.01 - 100 tons	ton	0	R	140.00	R	-
1.6	Collection of more than 100 tons	ton	0	R	140.00	R	-

Bidders are to take note that reimbursement is strictly based on the quantum of waste collected (Actual tonnage)

**Section B1 - B8**

- 24 Provides for a range of rates based on the quantum of waste processed per month.
- 25 Utilizing best available estimates, ACSA has provided estimated volumes of waste that will be generated.
- 26 All quantities are provisional and are subject to remeasure based on actual quantities of waste generated on site.
- 27 It is anticipated that cost efficiencies can be achieved with greater quantities of waste being processed.
- 28 Section B represents the disposal/repurposing/re-use/ alternative recycling aspects of the service
- 29 Section B is made up of pricing Option A and Option B
- 30 Option A represents the traditional method of disposal and would typically result in an expense to the client.  
An example would be the disposal of general waste to landfill which would incur a cost.

Option A							
<b>Option A - Monetary Expense to ACSA</b>							
<b>Collect transport and dispose of general waste to landfill</b>							
3.1	Collection Transportation and Disposal of 0-20 tons	ton	1	R	15.00	R	15.00
3.2	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	R	14.00	R	14.00
3.3	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	R	13.00	R	13.00
3.4	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	R	12.00	R	12.00
3.5	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	R	11.00	R	11.00
3.6	Collection Transportation and Disposal of more than 100 tons	ton	1	R	11.00	R	11.00
<b>Option B - Monetary Income to ACSA</b>							
<b>Collect transport and divert general waste from landfill</b>							
3.7	Collection Transportation and Disposal of 0-20 tons	ton	1	R	-	R	
3.8	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	R		R	
3.9	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	R		R	
3.10	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	R		R	
3.11	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	R		R	
3.12	Collection Transportation and Disposal of more than 100 tons	ton	1	R		R	
Option B							
31	Option B represents new ways of working where alternate methods of disposal are utilised to repurpose/reuse/recycle the waste.						
32	The intent is to divert waste from traditional disposal methods such as waste to landfill						
33	The intent is to improve ACSA's carbon footprint by achieving goals such as zero waste to landfill.						
34	The intent is to provide a monetary return to ACSA through alternate methods of disposal/repurpose/reuse/recycling.						
35	Option B represents an alternative method of disposal and would typically result in revenue being generated and monetary return to ACSA						
<b>An example would be the disposal of general waste using alternative repurposing/re-use/recycling methods.</b>							
<b>Option A - Monetary Expense to ACSA</b>							
<b>Collect transport and dispose of general waste to landfill</b>							
3.1	Collection Transportation and Disposal of 0-20 tons	ton	1	R	-	R	-
3.2	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	R	-	R	-
3.3	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	R	-	R	-
3.4	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	R	-	R	-
3.5	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	R	-	R	-
3.6	Collection Transportation and Disposal of more than 100 tons	ton	1	R	-	R	-
<b>Option B - Monetary Income to ACSA</b>							
<b>Collect transport and divert general waste from landfill</b>							
3.7	Collection Transportation and Disposal of 0-20 tons	ton	1	-R	4.00	-R	4.00
3.8	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	-R	5.00	-R	5.00
3.9	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	-R	6.00	-R	6.00
3.10	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	-R	6.00	-R	6.00
3.11	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	-R	6.00	-R	6.00
3.12	Collection Transportation and Disposal of more than 100 tons	ton	1	-R	6.00	-R	6.00
Bidders are to take note that the rates tendered are in the negative (-) representing a monetary return to ACSA.							

**Alternate Pricing Option**

- 36 The alternate option is where both an expense and a return can be expected.
- 37 The bidder prices option A reflecting the expense or costs associated with the disposal.
- 38 The bidder then prices option B reflecting the return that can be achieved.
- 39 The net effect will be a reduced cost of disposal.

**Option A - Monetary Expense to ACSA**

**Collect transport and dispose of general waste to landfill**

3.1	Collection Transportation and Disposal of 0-20 tons	ton	1	R	15.00	R	15.00
3.2	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	R	14.00	R	14.00
3.3	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	R	13.00	R	13.00
3.4	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	R	12.00	R	12.00
3.5	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	R	11.00	R	11.00
3.6	Collection Transportation and Disposal of more than 100 tons	ton	1	R	11.00	R	11.00

**Option B - Monetary Income to ACSA**

**Collect transport and divert general waste from landfill**

3.7	Collection Transportation and Disposal of 0-20 tons	ton	1	-R	1.50	-R	1.50
3.8	Collection Transportation and Disposal of 20.01 -40 tons	ton	1	-R	1.50	-R	1.50
3.9	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	-R	1.50	-R	1.50
3.10	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	-R	1.50	-R	1.50
3.11	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	-R	1.50	-R	1.50
3.12	Collection Transportation and Disposal of more than 100 tons	ton	1	-R	1.50	-R	1.50

Example of completed section B1 (Bidder selected the alternate option where there is both an expense as well as a monetary return)

SECTION B1: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING						
3 GENERAL WASTE						
Option A						
Collect transport and dispose of general waste to landfill						
3.1	Collection Transportation and Disposal of 0-20 tons	ton	1	R	15.00	R 15.00
3.2	Collection Transportation and Disposal of 20.01 -40 tons	ton	30	R	14.00	420.00
3.3	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	R	13.00	13.00
3.4	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	R	12.00	12.00
3.5	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	R	11.00	11.00
3.6	Collection Transportation and Disposal of more than 100 tons	ton	1	R	11.00	11.00
Option B						
Collect transport and divert general waste from landfill to alternate disposal methods						
3.7	Collection Transportation and Disposal of 0-20 tons	ton	1	-R	1.50	-R 1.50
3.8	Collection Transportation and Disposal of 20.01 -40 tons	ton	30	-R	1.50	-R 45.00
3.9	Collection Transportation and Disposal of 40.01 - 60 tons	ton	1	-R	1.50	-R 1.50
3.10	Collection Transportation and Disposal of 60.01 - 80 tons	ton	1	-R	1.50	-R 1.50
3.11	Collection Transportation and Disposal of 80.01 - 100 tons	ton	1	-R	1.50	-R 1.50
3.12	Collection Transportation and Disposal of more than 100 tons	ton	1	-R	1.50	-R 1.50
TOTAL: SECTION B1 - CARRIED TO SECTION SUMMARY					R	429.50

	<b>Section C</b>
40	Provides for a range of rates based on the quantum of waste recycled per month.
41	Utilizing best available estimates, ACSA has provided estimated quantum of waste that will be recycled.
42	All quantities are provisional and are subject to remeasure based on actual quantities of waste generated on site.
43	Bidders are to take note that the rates tendered are in the negative (-) representing a monetary return to ACSA.
44	The total sum (return) for recycling is carried to the section summary

**Example of completed recycling returns carried to section summary**

<b>C</b>	<b>SECTION C: RECYCLING RETURN</b>						
	<b>Plastics</b>						
10.1	Polyethylene Terephthalate (PET)	Kg	1260	-R	0.20	-R	252.00
10.2	Polyethylene Terephthalate Mixed (PET Mixed)	Kg	0	-R	0.20	R	-
10.3	Polypropylene (PP)	Kg	270	-R	0.20	-R	54.00
10.4	Low Density Poly Ethylene Soft (LDPE Soft)	Kg	1050	-R	0.20	-R	210.00
10.5	High Density Polyethylene (HDP)	Kg	460	-R	0.20	-R	92.00
10.6	Polystyrene (Plastic PS)	Kg	60	-R	0.20	-R	12.00
10.7	Plastic Mix	Kg	40	-R	0.20	-R	8.00
10.8	Biaxially Oriented Polypropylene (BOPP)	Kg	260	-R	0.20	-R	52.00
	<b>Paper</b>						
10.9	Common mix waste	Kg	3860	-R	0.20	-R	772.00
10.10	Newspaper	Kg	5330	-R	0.20	-R	1 066.00
10.11	Carboard	Kg	3910	-R	0.20	-R	782.00
10.12	White office paper	Kg	660	-R	0.20	-R	132.00
	<b>Oil</b>						
10.13	Machine oil	Litres	1	-R	0.20	-R	0.20
10.14	Food grade oil	Litres	1	-R	0.20	-R	0.20

<b>Section D</b>	
45	Provides provisional sums that will be subject to proven costs.
46	The negotiated and agreed mark up will be applied to all works undertaken.
47	Where no provisional sum is provided, then bidders shall tender rates for the monthly cost for that particular item of work.

**Example of completed schedule D**

<b>D</b>	<b>SECTION D: PROVISIONAL ITEMS</b>					
11.1	Provisional Sums - Permits (Proven Cost - No Mark up)	Sum	1	R	5 000.00	R 5 000.00
11.2	Provisional Sums - Waste Classifications, Testing and Ad - hoc (Proven Cost)	Sum	1	R	2 500.00	R 2 500.00
11.3	Mark up on item 11.2	%	2%	R	2 500.00	R 50.00
11.4	Provisional Sum - Contractor facilities (Proven Cost - No Mark up)	Sum	1	R	5 000.00	R 5 000.00
11.5	<p><b>Provisional</b> – Currently there are waste sortation facilities located on the airside of the airport precinct. There are currently two (2) facilities, Facility 1 is for the sortation of domestic waste. Facility 2 is for the sortation of international waste.</p> <p>ACSA intends to convert these facilities to transfer stations and storage areas in effort to optimize operations.</p> <p><b>Domestic Sortation Facility</b>            -The contractor will be responsible for access control.            -The contractor will form an enclosed area within the facility to create a satellite waste station/transfer area.            -The contractor is to maintain the waste area/transfer station for the duration of the contract.</p> <p><b>International Sortation Facility</b>            -The contractor will be responsible for access control.            -The contractor will form an enclosed area within the facility to create a satellite waste station/transfer area.            -The contractor is to maintain the waste area/transfer station for the duration of the contract.</p> <p><b>Notes:</b>            - The square meterage provided on the price schedule is the estimated area of the enclosed transfer stations.            - The transfer stations will have a proposed floor area of 36m2 each.            - As built drawings have been provided in the tender specifications.            - Drawings have been marked up to highlight the proposed transfer area.</p>	No	2	R	1.00	R 2.00
	Provisional Sum – Treatment/remediation of water stored in the pollution control dams.					

	<b>Section Summary</b>
48	The total price for each individual section is carried to the section summary.
49	The total price for 1 month is then calculated.
50	The total price for 1 month is multiplied by 12 to calculate the total price for 1 year
51	The total price for year 1 is carried into the final summary.

**Example of the completed schedule shown below:**

#	Section Summary		Monthly Total Carried To Section Summary
A	SECTION A: WASTE COLLECTION & SORTATION		R 19 520.00
B1	SECTION B1: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - GENERAL WASTE		R 429.50
B2	SECTION B2: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - SOLID HAZARDOUS WASTE		R 10.00
B3	SECTION B3: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - MEDICAL WASTE		R 10.00
B4	SECTION B4: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - LIQUID HAZARDOUS WASTE		R 10.00
B5	SECTION B5: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - FLUORESCENT TUBES & LIGHT LAMPS		R 10.00
B6	SECTION B6: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - BATTERIES		R 10.00
B7	SECTION B7: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - HYDROCARBON WASTE		R 10.00
B8	SECTION B8: WASTE TRANSPORTATION & DISPOSAL/REUSE/REPURPOSING/RECYCLING - SEWER WASTE		R 10.00
C	SECTION C: RECYCLING RETURN (MONETARY RETURN)		-R 5 644.40
D	SECTION D: PROVISIONAL ITEMS		R 15 202.00
	<b>TOTAL MONTHLY COST EXCLUDING VAT</b>		<b>R 29 577.10</b>
	<b>TOTAL ANNUAL COST (x12 MONTH) CARRIED TO FINAL SUMMARY - EXCLUDING VAT</b>		<b>R 354 925.20</b>

**Final Summary**

52	The total price for year 1 is carried into the final summary as the base price.
53	The price for year 1 is then escalated by a percentage for inflation in each successive year.
54	There will be no escalation in year 1
55	Provision of 5% is an ACSA allowance. Actual increases granted will be determined by prevailing CPI rates published by statistics South Africa at the anniversary of the contract
56	The total tendered sum for the five (5) year period is then carried to the form of offer.

**Example of the completed schedule shown below:**

#	Final Summary	Annual Total Excluding Escalation	Inflationary Increase (CPI)	Annual Total Including Escalation
1	Year 0 - 1 (Total annual cost carried from the Annual Summary - No Escalation in Year 1)			R 354 925.20
2	Year 1 - 2	R 354 925.20	5.00%	R 372 671.46
3	Year 2 - 3	R 372 671.46	5.00%	R 391 305.03
4	Year 3 - 4	R 391 305.03	5.00%	R 410 870.28
5	Year 4 - 5	R 410 870.28	5.00%	R 431 413.80
	<b>TOTAL CONTRACT COST EXCLUDING VALUE ADDED TAX (VAT)</b>			<b>R 1 961 185.78</b>
	<b>VALUE ADDED TAX (VAT @ 15%)</b>			<b>R 294 177.87</b>
