

Please receive clarity on the insurance requirements as per question raised in the briefing session.

The R100 million referred to in the document is the insurance cover that ACSA takes on behalf of our maintenance contractors. However, the contractors are required to cover the deductibles referred to in Part 2, paragraph a).

In this particular case of a landside contractor, the contractor should provide proof to you that they have

- Public liability insurance for a limit not less than twenty five thousand rands (R25 000), for each and every claim.

When you have a maintenance contractor that works on the airside the limit required is two hundred and fifty thousand rands (R250 000).

Kind Regards,

Johnson Mji
